## Preface

The AIX reports are designed and intended primarily for use by the state park directors and their staff for various purposes, such as identifying program, facility and personnel needs, formulating budgetary requests for state legislatures, and comparing their programs with those of the other states. For such “in-house” use, the reported data essentially speak for themselves and require little explanation or amplification. Over the years, however, state parks data published in the AIX have been increasingly requested, and presumably used, by a growing number of other individuals – in academic institutions, in other governmental agencies, and even in business and industry. Because of these expanding external interests, it is important that the subject data first be adequately understood so they may be properly applied. For that reason, every effort has been made in compiling this report to provide guidance for the user, as well as to ensure accuracy and completeness of the data themselves.

Slight changes have been made in this report each year in format, organization and in the included subject matter. This current version contains the same types of information as in the past, presented in a manner intended to facilitate access and allow ready comparison with similar data for previous years.

It is recommended that all users of the data in this report, whether veteran park staffers or novices, first carefully review the accompanying definitions, notes and symbols to make sure they have the best possible understanding before making assumptions or drawing conclusions based on this data.

Phil McKnelly  
Executive Director, NASPD

Joe Elton  
President, NASPD

**The data in this report represents the most current data submitted by the states at the time of publication. Updated data are available from the National Association of State Park Directors.**

## Introduction

All data in this report are for the period between July 1, 2008 and June 30, 2009, or for the status as of that date, whichever is applicable. All data are provided by the state park agencies for their respective states. Where exact data are not collected by certain states, those states are requested to estimate as accurately as possible rather than omit responses altogether. If current year data was not provided by the state, prior year data was used.

Reasonable efforts were made to ensure the accuracy and completeness of all reported data. For example, data entries were compared with previous year's data to identify unusual changes, and total values were checked for possible calculation errors. Whenever a possible error was identified the state was contacted to verify the data item(s) in question. We believe this error-checking process has resulted in a more accurate data set. However, users are advised to contact the individual states directly if further verification is desired.

This report contains only tabulated raw data. Analysis and interpretation is the responsibility of the individual user. While all of the fifty state park systems share common attributes, they nevertheless vary considerably from state to state. For this reason, total comparability among the reported data cannot be achieved. Effort has been made, however, to devise common denominators that will allow a useful degree of comparison. Users of these data should become familiar with the definitions and guidelines established for certain categories, as set forth below.

The following sections are organized by tables. Each 'table' corresponds to the respective AIX worksheet that was distributed to each state. As each table/worksheet has many columns they are broken down into several pages for display in report format. Each section starts with a brief introduction followed by the data tables. At the end of each table there are explanation notes. Finally, definitions and terms are provided at the end of the report.

**Table 1: Inventory**  
(page 1 of 5)

Inventory pertains to the real property assets of a state park system, i.e. the various areas of land and water managed directly by the state parks agency. Inventory is measured in terms of number of areas and total acreage.

**Explanatory Notes**

STATE	NOTES
Alaska	Afognak Island Froest Lagacy Land -1996 acres Afognak Island EVOS - 2000 acres Kenai KRSMA property - 3 acres Agulowak and Lake Nerka 15,300 acres
Colorado	Natural Areas in Colorado are not owned by the State of Colorado, nor are they part of the Colorado State Parks system. Colorado Natural Areas are voluntary agreements with land owners, often private land owners, and remain the property of the particular owner.
Georgia	We added acreage to an existing park.
Hawaii	Two miscellaneous areas are being managed by another agency and were removed from the State Parks inventory.
Iowa	Other/Misc Areas are the state parks managed by county conservation boards
Kansas	No changes needed 2009
Kentucky	KY State Parks GIS Analyst, Alex Thor, has assisted with the Total Acreage Inventory for the latest NASPD-AIX survey. Last year was the first year we actually had a division within our KY State Parks agency that strictly managed the boundaries and GIS data for our state parks. As a result, our total acreage reporting last year was decreased by several thousand acres compared to previous years' data... due to advanced technology that allows our team to accurately outline our state owned boundaries for our parks. For nearly a century, Kentucky State Parks acreage was measured and reported by the Kentucky Division of Real Property with deeds dating back to the 1920's & 1930's. Imagine how ancient of a process it must have been 80 years ago to measure the acreages of so many pieces of land... Most of those measurements were simply "stepped off," instead of mapped out with GIS coordinates. This information was communicated to Ms. Deb Hoffbeck last year. Furthermore, Alex Thor reiterated that over the next 2-5 years, our acreage amounts may continue to change as he continues to dissect these historic deeds and attempt to accurately map out our State Parks' boundaries. Through perpetual meetings with KY Division of Real Property, we will be able to depict our acreages with more precise totals.
Maine	State Parks: Adjustments to correct errors in database; addition of 29 acres to Rangeley Lakes State Park; State recreation areas: Adjustments to correct errors in database including double counting of 3,300 acres for overlapping Appalachian Trail CE's.
Maryland	For this period, all areas have been combined due to official designation as State Parks. The Maryland Park Service has 2 Major Rail Trails comprising 31.5 Miles and 653 acres. Individual parks have a total of 789 miles of trails and water trails
Massachusetts	The number of acres increased from last year by 7,123.4. This includes conservation restrictions within state and urban parks.
Missouri	Roger Pryor Backcountry acreage was reviewed and determined to be 60,000 acres (rather than the 61,000 previously reported).
Montana	In FY2009 the division added three new parks and additional acreage to it's inventory of approximately 2,824 acres. Increase in Parks acreage indicates additional easements to existing parks and other conveyance recording. In FY2009 Fish Areas increased by 6 sites and approximately 1,950 acres and the number reflects only sites actively managed by the State Parks Division as Fishing Access Sites. Total Trail-Montana State Parks only manages trails within our state parks. We assist local clubs and communities through grant programs but do not manage any trails that may be established.
Nebraska	Data not provided for 2008.
Nevada	Updated to account for the transfer of federal land along with minor corrections to the total acreage of historical areas. The difference in acreage between 2009-10 is due to a mistake that was made in the 2009 data. We also reclassified one historical area to a scientific area.
New Hampshire	Acquisitions: 1) Dartmouth property (Mt Washington) 2) Presidential Rail Trail; Other: 1) USFS land exchange (Mittersill ski area) 2) SPNHF exchange for Monadnock parcel 3) City of Berlin for Jasper Mtn conservation easement.
New Jersey	Information reported for Other & Miscellaneous Areas under Total Areas in System was incorrect. The actual number was 31. The information reported in Other & Miscellaneous Areas under Total Operational Areas was also incorrect. The actual number was 27.
New York	This table contains data from both the New York State Office of Parks, Recreation and Historic Preservation (OPRHP) and the New York State Department of Environmental Conservation (DEC). Information for New York is based on the state's fiscal year, April 1, 2007 to March 31, 2008. The most recent new park is Walkway Over the Hudson. New acreage includes additions to existing parks as well as 10ac for Walkway Over the Hudson.
North Carolina	Eleven "Other" areas include 7 State Lakes (29,135 acres of water) and 4 State Rivers. In addition to the above figures, also have 1274 acres along the Deep River State Trail and Mountains-to-Sea Trail..
Oregon	State Recreation Areas = SRA/SRS Natural Areas = SNA/SNS Historical Areas = SHS/SHA
Pennsylvania	PA is currently GPS'ing its trails. As we continue to refine this program, the numbers of trails and mileage will be corrected.
Utah	There was some confusion last year as to what the "total operational" number should be, so we have changed it to be total operation trails.
Washington	July 1, 2008 to June 2009: natural areas have been removed from the area count. Reduction from 4540 to 344 acres based on reclassification of three parks: Federation Forest, 594 acres, Leadbetter Point, 1699 acres, and Mount Pilchuck, 1903 acres were reclassified from natural area into mixed use or state parks acreage. The acreage is still in the system, but is now appearing as state parks acreage.
West Virginia	Trail data refers to only our two rail trails. Total trails in all areas equal some 1000 miles.
Wyoming	Trails 2010- 8 additional miles at Gowdy (for a total of 32) 2009 Total miles is incorrect Total=36;

**Table 2: Facilities**  
(page 1 of 7)

This report tabulates the number of separate state park areas offering such facilities, as well as the total number of such facilities, broken down by year-around and seasonal availability. States that provided "0" or no data are excluded from averages. To be included the facilities must be owned by the state and either self operated or concession or lease operated by private business. Facilities may also be included which are owned privately and operated by the state. Facilities which are neither state owned nor state operated may not be included, regardless of whether access to such facilities crosses park lands or not.

## Table 2: Facilities (page 7 of 7) Explanatory Notes

STATE	NOTES
California	Table 2 - Changes in 'number of separate areas that offer these facilities' reflect modification and/or updating of facility definitions or reporting practices and do not include any actual changes in areas offering these facilities. Table 2 - 'Cabins/Cottages' include floating campsites. Changes reflect this revision in reporting standards rather than any actual changes in areas offering these facilities. Table 2 - 'Group Sleeping Facilities' previous data provided as separate areas that offer these facilities instead of individual units. Changes reflect this revision in reporting standards rather than any actual changes in areas offering these facilities. Table 2 - 'Lodges' now include hotels, hostels and bed & breakfast type facilities. Changes reflect this revision in reporting standards rather than any actual changes in areas offering these facilities.
Colorado	There are a total of 63 cabins/yurts/tipis in the Colorado State Parks system; 19 of these are contractor operated. The difference of one cabin from 2009 is a correction in the inventory. One cabin burned down and was not removed from the previous inventory.
Connecticut	Two new 'Rustic Cabins' were opened at Hammonasset Beach State Park.
Iowa	Primitive campsites are those campsites located in a nonmodern campground. Availability in winter is dependent on weather. We have added amenities included in our new resort which is under a management agreement with a management company. The swimming pool is actually the indoor waterpark at the resort.
Kansas	Added more cabins
Louisiana	Lodges are typically a larger cabin that sleeps 12-15 individuals.
Maine	Three new primitive campsites added to St. Croix International Waterway in 2008-2009; 16 total number of campsites (corrected previous undercount).
Massachusetts	Lodge contains 4 private and 4 groups rooms; lodge is not available to the public and park does not collect any revenue for this facility. New Yurt facility in FY09. Budget Restructuring closed 1 primitive facility(Windsor). Budget Restructuring closed 1 improved facility(Massasoit).
Minnesota	Basis for determining seasonal vs. year-round campsites changed. Camper cabins added.
Nevada	Corrected 2009 report based on a more careful interpretation of the type of facilities provided.
New Hampshire	New to report: 1) Inclusion of FNSP & Mt Washington restaurants and 2) Umbagog marina
New Jersey	Due to our new winter operations, the number of camping facilities offered in the winter has been reduced. The number of cabins/cottages reported for 2009 was incorrect. The correct number is 10.
New Mexico	The Division has one winter sports equipment concession that rents skis, snowboards, and inner tubes. Additionally they sell ski apparel and refreshments/snacks. The concession is at a state park approximately five miles from the Santa Fe Ski Basin. The Hyde Park Lodge is available for rent as a "group area" shelter only, with no individual rooms for rent.
North Carolina	In addition to above, also operate The Summit Environmental Education Center at Haw River State Park with motel-style rooms, 10 dormitory-style youth cabins, food service, and swimming pool. Group sleeping: SILA, WIUM, and HARI. Cabins: HARO (10 open year round), MOMO (6 year round). With new central reservation system, campsites and cabins are now available year round.
Oklahoma	Units at Lake Murray removed from inventory.
Oregon	Improved= full, electric, and tent Primitive = walk-in, primitive, and horse Cabins/cottages = cabins, yurts, tepees, wagons Group Sleeping = Ranches (Silver Falls) Lodges = Silver Falls (4 lodges/6 rooms each; 2 duplex cabins, 4 units total; Upper Smith - 8 cabins) Wolf Creek (9 rooms), Frenchglen (8 rooms; closed in winter). Restaurants = Wolf Creek, Frenchglen Marinas = The Cove, Wallowa, Stewart
South Dakota	Added Spring Creek Deep Water Marina Cabins/cottages include "concessionaire" operations (they are counted as seasonal).
Tennessee	Ross Creek Landing Golf Course, operated under license with State of TN, moved to private operation. 20 Condo style rental units at Reelfoot Lake permanently taken out of service. Pool at Reelfoot permanently taken out of service
Texas	No Change
Washington	2009 report - marines that meet the definition were not included in last year's report (Puget Sound Region parks) Some utility sites were renovated to cabins/yurt facilities (Lake Sylvia and Lewis and Clark state parks) Last year the number of "group sleeping facilities" were counted and not the "separate areas" that provide these facilities, and some different definition interpretation by each region office.
Wisconsin	(Primitive Campsites) System-wide year round primitive campsite increase. (Marinas) Lakeshore State Park has boat slips, but no facilities.
Wyoming	Campsite #'s based on GIS does not include improvements at Keyhole, Glendo, Guernsey or Sinks. Lodge rental is for entire facility, individual rooms are not rented as lodges contain group bunk areas.

**Table 3A: Visitation and Use - Attendance**  
(page 1 of 7)

This table comprises three subsections, Table 3A, Table 3B and Table 3C. State park visitation, or attendance, is reported separately for “day” use and “overnight” use, and by “fee” areas and “non-fee” areas.

STATE	Fee Areas			Non-Fee Areas

**Table 3: Visitation and Use**  
**(page 7 of 7)**  
**Explanatory Notes**

STATE	NOTES
Arizona	*Cabins and Yurts are not separated from number of campers. They are included as overnight users.  ** Overnight Facility Use information, table 3C, is not available at this time.
Arkansas	Campsites Seasonal Facilities for 2009, the amount should be 0 not 709,186.
California	Table 3b - 2009 Number of Group Sleeping Guests is reported as zero because these visitors are included in the numbers of campers California State Parks does not itemize visitation according to NASPD's classification of facilities. Table 3c - Cabin use total includes Crystal Cove SP beach cottages. Table 3c - 2009 Seasonal Facilities / Campsites is reported as zero because these visitors are included in the numbers of campers California State Parks does not itemize visitation according to NASPD's classification of facilities. Table 3c - Number of lodge, cabin/cottage and group sleeping guests included in number of campers because these visitation data are not itemized.
Colorado	State Parks operates seasonal camping facilities but does not break down rental activity by seasonal/year-round use. Campsites are lumped and include both seasonal and year-round. 11-2009 Note: Number of campers through the reservation system was underreported in the past. The change in the number of campers reflects a correction to the number of campers, NOT a significant increase in campers.
Connecticut	Most campgrounds operate from the weekend before Memorial Day weekend through Labor Day weekend. All department-operated campgrounds are closed from January 1 to the 3rd Friday in April. (Opening Day of fishing season is the 3rd Saturday in April.)
Delaware	Year round Campsites = Killens (20%) + Del Seashore. Seasonal Campsites = Lums+Trap+Cape+Killens (80%) Year round Cabins = Killens+Del Seashore. Seasonal Cabins = Lums+ Trap (cabins and Yurts). Lodging = Cape Biden Center and Youth camps.
Georgia	Table 3B: Substantial increase in group facilities number over prior years is due to more accurately tracking rental group facilities and pioneer group camping areas.
Hawaii	We do not have any seasonal facilities. Our parks are open year round, 365 days a year. The number 72,000 reported for 2009 is incorrect. Non-fee day users were not tabulated; 2009 was inserted.
Idaho	The number of days in the rental season varies by site.
Iowa	No lodge data available.
Kansas	Changes made 2009
Kentucky	Seasonal represents Apr - Oct
Maine	Camper nights from table 3A/3
Massachusetts	Attendance numbers include large scale events including the nationally televised Fourth of July at the Hatch Shell in Boston where an estimated 500,000 people attend. Attendance numbers also include attendance at pools.  Overnight visitor decrease due to closing of areas such as Nickerson SP to repair storm damage or utility repairs. Number of campers: nights * avg 3 people per night per site. Number of Cabin/cottage: nights * avg 3 people per night per site. New yurt facility in FY09.
Michigan	Cabin figures for the 2010 report reflect a policy change that increased the number of units designated as a "cabin".
Minnesota	2009 report had incorrect figures for Seasonal Campsites. Also, method for calculating seasonal vs. non-seasonal has changed.
Missouri	2009 Seasonal Facility campsite data is in error. The correct number is 0.
Montana	Table 3a. Non-fee Day Areas = all state parks and FASs (Fishing Access Sites).  State Parks daily entrance fees are not charged to Montana residents. Visitors arriving in vehicles bearing Montana license plates at a state park for non-commercial purposes are granted free day-use access for all occupants of the vehicle. As of January 2004, residents pay an optional \$4 state parks fee when registering light vehicles annually. Park attendance is estimated monthly using traffic counters for the following: 1,563,627 day visitors and 231,942 overnight visitors, totaling 1,795,569 park visitors in FY09.  Fee Overnight Areas = all camping at state parks and FASs.  FASs are free to all day visitors. FAS visitation reflects CY 2008. Estimations are based on annual traffic counter trends at indicator sites, therefore not separated into FY. Estimated day visitors: 3,680,653. Overnight visitors were estimated from FAS camping revenue divided by \$7 camping fee to find number of camping nights (18,820), then applying 2.5 people per vehicle average totaling 47,051 campers. Total FAS is 3,727,704.  Table 3b. Number of cabin guests was estimated by individual park managers. Cabin guests are included in overnight visitors counted in Table 3a).  Table 3c. Parks and FAS campsite rental nights were estimated from revenue generated. Eleven parks are open for camping all year; thirteen parks are open seasonally. The "cabins" category includes tipis, yurts and cabins, none of which are self-contained. Guests use the public restroom facilities.
New Hampshire	3A: Free admission for children <12 based upon fee attendance x 0.7. Non-fee attendance is not tracked (Hampton Beach, Franconia Notch, & Crawford Notch) 3C: Does not include onsite registration campsites (Coleman, Deer Mtn, Dry River, Monadnock, Pillsbury & Mt Sunapee).
New Jersey	In the 2009 report, the 170,055 reported for Seasonal Facilities Campsites was incorrect. The correct number is 22,455.
New York	Attendance data includes information from both OPRHP and DEC.
North Carolina	3b. "Lodge guests" reports Summit EE Center overnight visitation; "Cabins" reports MOMO & HARO; "Other" is FOFI; "Group" reports SILA & WILUM group camps. Former seasonal facilities now open year round under new central reservation system.
North Dakota	NDPRD stopped keeping head count of Group Sleeping Guests, charging a flat rate for groups.
Oregon	Campsites are all sites except cabins and yurts Cabins are only cabins and yurts Lodge Rooms include Silver Falls & Wolf Creek for year round and Frenchglen for seasonal.
Pennsylvania	Seasonal 2nd Friday April to Deer Season
Utah	These numbers were previously based only on reservation data—they are now based on actual visitation numbers.
Vermont	Prior year Lodge Rooms: Year Round= 686; Seasonal Facilities=0
Virginia	We have several facilities (environmental education centers) for which we do not track rental nights. This is a very small portion of our overnight business.
Wisconsin	Last year number shown for lodge guests should have been in cabin/cottage guests.
Wyoming	2010 Campsites based on # campers/party=4.7 2010 Campers=387834/4.7=82517 rental nights 82517 rental nightsX5.3% sites open seasonally = 4373

**Table 4: Capital Expenses**  
(page 1 of 2)

Capital expenditure consists of new land acquisitions and new construction of state park improvements.

**Table 4: Capital Expenses**  
**(page 2 of 2)**  
**Explanatory Notes**

<b>STATE</b>	<b>NOTES</b>
California	Table 4a - 'Total value of all lands acquired by other means' figure represents the total value donated to California State Parks for the acquisition of properties 'acquired by purchase'. California State Parks tracks this amount separately from the purchase price of the fee acres, which is the amount listed as 'Total cost of all lands purchased'. Table 4b - Projects have been delayed and/or suspended.
Colorado	Acquisitions and new construction dropped significantly due to Colorado's budget situation, despite these typically being funded through dedicated funds rather than state tax dollars.
Connecticut	Capital expenditures of 4.1 million dollars for a new Visitor's Center at Hamonasset Beach State Park, and for new restrooms and ticket booth at People's State Forest. There is no appraisal for 70 acres of donated land: 20 acres for Gillette Castle State Park, 37 acres for Cockaponset State Forest, and 13 acres for Wyantenock State Forest.
Florida	The majority of our capital improvements are paid from State Trust funds that are statutorily mandated for land management and facility development among other issues.
Maine	Addition to Rangeley Lake State Park
Massachusetts	See Spreadsheet for details on projects included. DCR (Urban and State Parks) acquired 2,245+/- acres in FY09. Of these acres, 1,011 were acquired outright in fee, and we acquired CRs on 1,234 acres. DCR spent \$8,136,650 to acquire this land. These funds leveraged \$775,000 from a sister agency and land trust contributions, and an additional \$323,000 in bargain sales, where some of the owners of this acreage chose to sell their land to DCR at less than the appraised value.  In addition, gift CRs on 4,878 acres of land were conveyed to DCR. The largest of these was a CR on 4,000 acres of City of Fall River Watershed land. This brings the total of land acquired in FY09 to 7,123 (1011 in fee, 6112 CR).
Montana	Other Montana State Parks capital construction funding sources: Federal Land Water and Conservation Funds (LWCF)- \$200,000
North Carolina	"Initiated" defined as construction start date per contracts.
Oklahoma	These figures represents projects authorized in fiscal year 2008 and 2009 for State Parks.
South Carolina	Land purchased with grant funding.
South Dakota	4.7 Acres at Palisades SP \$349,000 2.26 Acres at Big Stone Island \$500
Wisconsin	Number for Table 4b is yet to come.

**Table 5A: Financing – Operating Expenditures**  
(page 1 of 19)

Expenditures are reported in two general categories: operating expenditures and fixed capital expenditures. Please refer to the definition of terms section for a detailed description of each. Table 5 comprises six subsections on various aspect of financing issues. Due to the complexity of this table explanatory notes are provided after each subsection. States that provided “0” or no data are excluded from averages.

STATE	Operating Expenses - Source of Funds					Total Operating Expenses

**Table 5A: Financing – Operating Expenditures**  
**(page 2 of 19)**  
**Explanatory Notes**

<b>STATE</b>	<b>NOTES</b>
Alabama	Sales Tax Discount for Park Operations, fines, restitution, easements, oil and gas, Casualty Losses, timber sales
Alaska	Other state agencies - Fish & Game, DNR.
California	Table 5a - 'Other sources' include Reimbursible Funds. Table 5a - 'Dedicated funds (from ear-marked sources)' includes boating gas tax monies previously reported under 'Park Generated Revenue' and one-time money for deferred maintenance, compliance with Americans with Disabilities Act, and other bond-related support activities.
Connecticut	Number is higher because of new positions which include fringe dollars.
Delaware	Other Sources: Interest from the local grant projects.
Hawaii	Funds in the amount of \$770,387 was received from the Hawaii Tourism Authority - Transient Accommodations Tax. An additional \$360,088 was received from other special funds accounts.
Idaho	Federal Funds: Federal Grant indirect cost recovery and non-Federal grants/contracts
Indiana	Other- Concession Operations and Water Park Revenue
Iowa	Dedicated Funds: Appropriation from the Environment First Fund Other Sources: Cedar Rock Trust; Sand & Gravel royalties, barge fleeting \$, ag leases, nature store, donations, misc.
Kansas	Federal Funds - grants for trail crews, Americorps workers changes made 2009
Louisiana	2010 other sources includes \$15,199,775 in IAT stimulus funds.
Maryland	Reimbursible Funds.
Massachusetts	Other sources is the campground reservation fees. Staff Source: George Trubiano
Montana	Park Generated includes: · OHV, Snowmobile, Boating fees · FAS fees · Parks fees · Grants administration fees  Dedicated Funds includes: · Natural resource taxes · Fuel taxes · Accommodation taxes · Optional Light Vehicle Registration  Other Sources includes: · Donations · Enterprise Sales
Nevada	#2: other sources include: rental income, misc. revenue, interagency transfers, excess property sales, returned check charges and Dept. of Wildlife license plate grants
New Hampshire	Unaudited. Operating expenditures of \$10,782,612 exceed Park generated revenues of \$10,389,910 (loss carry forward).
North Carolina	Other sources: sales of surplus equipment.
Oklahoma	Other Sources:
Oregon	Park Generated Revenue detail in Table 5e. Dedicated funds: Deschutes \$268,308; Sinking funds \$2,825,294; Salmon Plate \$287,467; RV (net of transfer to counties) \$11,125,127; Marine Board \$1,099,235; Rest Area \$1,794,414.
South Carolina	Appropriation funding from the General Assembly.
Tennessee	Best totals available at time of report. Final year end close out numbers not yet available.
Vermont	Surplus property fund
Wyoming	In previous years capital funds were errantly included here (park generated funds, dedicated funds, fed funds). This was corrected in 2008 AIX and only Operating Expenses covering salaries and supplies included here.

**Table 5B: Financing – Capital Expenditures**  
**(page 4 of 19)**  
**Explanatory Notes**

<b>STATE</b>	<b>NOTES</b>
California	Table 5b - Other sources include Reimbursable Funds.
Delaware	Other sources: DelDot Transfers
Georgia	Other sources included Insurance Reimbursement. Park Generated funds were from parking passes.
Iowa	Dedicated Funds: received special appropriations for Volga, MFT fund, Park and Institutional Road Fund (P&I), REAP (Resource Enhancement and Protection fund); Lake restoration
Kansas	changes made
Maryland	New construction funded through Program Open Space and Waterway Improvement Funds. Land acquisition funded through Program Open Space.
Massachusetts	Staff Contact: M. Abrahams (see spreadsheet)
Missouri	Other sources: Natural Resources Damages Funds
New Jersey	To clarify the difference between the General Fund entry for 2009 and 2010. In previous years, funding was carried over into the next fiscal year; however in the 2010 fiscal year, the funding was not carried over, rather it was used by the NJ Dept. of Treasury to help the budget shortfall.
North Carolina	Table 5b does not include land acquisition costs. Land costs are shown in Table 4a.
Oregon	Dedicated Funds = Acquisitions significantly increased as a result of Legislative direction. Federal Funds = FIP --FF Other Sources = FIP --OF & FIP --LF
Tennessee	Major Maintenance Funding-\$2,100,000 Capital Projects Funding - \$3,950,000 Land Acq. Funding - \$3,521,170
Vermont	Land & Water Conservation
Washington	2008 - other sources are comprised of grants from other state agencies.
Wisconsin	Numbers yet to come.
Wyoming	Federal funds include Teal, BOR Title 28, RTP spent at Parks Other funds=MBGT

**Table 5D: Financing – User Fees**  
**(page 12 of 19)**  
**Explanatory Notes**

STATE	NOTES
California	<p>Table 5d(1) - Number of Areas where Charged - The term 'area' represents the number of park units where vehicle day use fees are collected. Many park units have multiple areas (entrance stations) where fees are accepted.</p> <p>Table 5d(1) - Per Adult Person - Per adult person entry/tour fees.</p> <p>Table 5d(1) - Vehicle Parking - Vehicle day use fees collected.</p> <p>Table 5d(1) - Vehicle Parking - Fees represent charges for bus parking. Total number of units accommodating small/large buses not available. Small Bus fees - \$50 / Large Bus fees - \$100.</p> <p>Table 5d(1) - Annual Pass - The term 'area' represents the number of park units charging vehicle day use fees. Many park units have multiple areas (entrance stations) where fees are accepted.</p> <p>Table 5d(1) - Annual Senior Citizen Pass - Represents Golden Bear Discount Pass with income restrictions for eligibility. Annual cost/fee for this pass is \$5 per calendar year. Also represents Limited Use Golden Bear Discount Pass for persons 62 years of age or older are eligible to receive this pass with no income restrictions valid during non-peak season. Annual cost/fee for this pass is \$10 per calendar year. Senior Citizen Discount. Permits year-round \$1 discount for vehicle day use and a \$2 discount for family camping for persons 62 years of age or older in state-operated parks regardless of income status without the need to purchase any pass.</p> <p>Table 5d(2) - Some camping loops in some parks allow pets. Lodge rooms are operated by concessionaires.</p>
Connecticut	With one exception, all campgrounds charge between \$11 and \$15 per campsite per night. Salt Rock Campground charges \$28 or \$30 per campsite (with hookups) per night.
Idaho	Those who have a valid Idaho RV sticker are not charged a reservation fee.
Iowa	Resort cabins were not included. The min/max for those cabins is \$179/\$499. The resort campground full hook-up fee is \$49.
Kansas	No changes 5cd
Louisiana	Non-refundable reservation fees are charged as follows: \$3 for walk-ins; \$5 for online reservations; and \$9 for reservations made by phone. These fees are paid to our reservation service provider.
Maryland	Some camping loops in some parks allow pets.
Massachusetts	Improved campsite 2 H/U instituted an additional \$2.00 preservation fee in FY09 at Salisbury.
Missouri	Minimum price reflects discounted camping (senior citizen and persons with disabilities).
Montana	The "cabins" category includes tipis, yurts and cabins, none of which are self-contained.
Nevada	Nevada requires payment of the entrance/day fee plus the camping fee, which was not reported in 2009.
New Hampshire	<p>5C: Includes DD&amp;M (60%) and Bureau of Historic Sites budgets.</p> <p>5D: On Wednesdays NH residents pay half price for day use parks. Historic sites are free to NH residents and \$7.00 for out of state visitors. Dogs are allowed at certain campgrounds.</p>
New Jersey	<p>The response to "Can campsites be reserved", was inaccurate for 2008. Campsites could be reserved in 2008.</p> <p>Dogs were allowed in only three campsites as a pilot.</p>
North Carolina	5d(2): Also have group fees at The Summit Environmental Education Center. A motel-style room is \$70 (double occupancy); cabins are \$55 adults, \$35 youth. Rates include one meeting space, audiovisual equipment, three meals and a snack.
Oregon	<p>Lodge Rooms: Silver Falls USC (minimum) and Wolf Creek (maximum)</p> <p>Cabins: Standard Yurt (minimum) and Wollowa Lake cabin (maximum)</p>
South Carolina	Primitive Camping: Price is based on group size with a minimum of \$10.
Texas	<p>Reservation fee applies to internet reservations only. Number of lodge rooms in 2009 should also be 225.</p> <p>Number of people allowed per campsite varies due to type of site.</p>
Vermont	<p>Lodge Rooms Max Prior Year: 75</p> <p>Cabin/Cottage: Min Prior year: 42</p> <p>Can campsites be reserved? prior year should be yes.</p> <p>Is a fee charged for the reservation? prior year should be yes.</p>
Virginia	Reservation fee of \$4 on web reservations only
Washington	Improved and accurate sources used for FY July 1, 2007 to June 30, 2008.
West Virginia	Pets must be kept on leash no longer than 10 feet in campgrounds
Wisconsin	Dogs were allowed last year as well.

**Table 5E: Financing – Revenue Sources**  
**(page15 of 19)**  
**Explanatory Notes**

<b>STATE</b>	<b>NOTES</b>
Georgia	Other Revenue \$2,960,576 - Contracts, Recreational Amenities, Day Use Rentals, Historic Site Admissions MINUS \$3,728,471 - Sales Tax, Refunds, Sales Tax TOTAL -\$767,895 for All Other Operations
Iowa	Reservation fees included in camping fees and some of the day-use lodge and shelter fees are also combined with camping fees. There is no revenue received from the resort as this is under a management agreement.
Kansas	changes to revenue made
Massachusetts	Staff Contacts: George Trubiano and Stephen Scappicio
Montana	All other revenue above includes the Enterprise fund which generates revenue from the sale of interpretive merchandise.
Nevada	We do not account for entrance/day fee revenue separate from camping revenue.
New Hampshire	Unaudited. Concessions not increasing revenues due to loss carry forward.
New York	Data presented on this page includes information for both OPRHP and DEC.
Oregon	Day use does not include Boat Moorage Overnight does not include Boat Moorage or Wolf Creek Concession operations includes Boat Moorage (Agency Object 8630) Lodge Room: Silver Falls \$112,070; Frenchglen \$17,932      Wolf Creek \$70,853 Restaraunt: Silver Falls \$16,981; Wolf Creek \$142,913
Texas	Entrance fee total included revenue from Annual Pass sales Camping fees include all facility fee types. Our system does not distinguish between facility types. Revenue from oil and gas production on park land is not included.
Vermont	Ski lease- 2,743,591 other- 4,300,153
Washington	Parking fee was eliminated during FY06 by legislative action, resulting in 0 collected for category "entrance fee" during FY07. Accounting correction was instituted in FY07 where revenue collected for reservations was not counted as revenue until reservation was actually earned resulting in less camping and group sleeping facilities revenue reported in FY07.

**Table 5F: Financing – Revenue Sources**  
**(page 19 of 19)**  
**Explanatory Notes**

---

Florida	Revenue reflects Fiscal Year 2008-2009 (July 1 - June 30) because 2009-2010 data is not yet available.
Kansas	One change 09
Maryland	A portion of the Real Estate Transfer Tax is assigned to Program Open Space and POS funds the Maryland Park Service by act of the Legislature.
Massachusetts	* Publications & Souvenir Sales: No approved merchandising plan during 2009. ** Investment interest: On Trust donated Funds. *** Other Funding: Inter-Agency Agreements; Federal trail grants; Public/Private Partnerships.
Nevada	We generate \$250,000 annually from interest paid on the principal from the sale of land.
Virginia	Other = timber revenue, surplus property sales No changes in 2010
Washington	Donations to parks available as an opt-in when renewing vehicle license tab. During FY09 this raised 757,438 deposited into our agency account (revenue earned by parks).
West Virginia	Employee housing - some key park staff, other than superintendent series personnel, rent on-site residences.

**Table 6A: Personnel – Number of Positions**  
(page 1 of 9)

The number of staff positions is reported in this table by three categories: (1) whether they are full-time, part-time (regular year-around staffers that work less than a full forty-hour week) or seasonal (those individuals hired for temporary service during peak-use seasons) employees; (2) whether they work in the central office or in the field and (3) whether they are regarded as “park professionals” (those employees engaged primarily in work specialized to the needs of state parks) or not (those doing non-park-specialized work, such as clerical, fiscal, legal, etc. States that provided “0” or no data are excluded from averages.

## Definitions

### **Table 1: Inventory**

Areas are individual units, or pieces of property, managed as part of the state park system.

The total acreage of a state park system includes water surface area only when the measured water bodies are wholly enclosed within the boundaries of a unit of the state park system.

An operational area is one that is open for regular use by the visiting public, and normally implies an appropriate level of development and staffing. State park inventories are reported in the following defined categories by the individual states:

State parks: Areas containing a number of coordinated programs for the preservation of natural and/or cultural resources and provision of a variety of outdoor recreation activities supported by those resources.

State recreation areas: Areas where a clear emphasis is placed on the provision of opportunities for primarily active recreation activities.

State natural areas: Areas where a clear emphasis is placed on protection, management and interpretation of natural resources or features.

State historical areas: Areas where a clear emphasis is placed on protection, management and interpretation of cultural, historical and/or archaeological resources or features.

State environmental education sites: Areas used exclusively or primarily for conducting educational programs on environmental subjects, natural resources, conservation, etc.

State scientific areas: Areas set aside exclusively or primarily for scientific study, observation and experimentation involving natural objects, processes and interrelationships; any other allowable uses are secondary and incidental.

State forests: Areas that, while under the direct administrative supervision and control of the state parks agency, are identified separately from the state park system and distinguished from state park units by having primarily a forest management and/or timber production role rather than a natural area and/or provision of recreation role.

State fish/wildlife areas: Areas under the administrative supervision and control of the state parks agency that are identified and managed primarily for the propagation and recreational taking of fish and/or game ("fishing and/or hunting areas").

State trails: Linear areas outside any other unit of the state park system that provide primarily for trail-type recreational activities (hiking, cycling, horseback riding, etc.) and normally do not contain any land areas large enough to support non-trail activities.

Other and Miscellaneous areas: *(These were combined for the first time with the 2001 AIX)* - Areas other than the above, that are considered special or significant enough in a particular state to warrant separate identification and treatment and/or areas that are not easily categorized or distinguished, or are not considered significant enough to warrant specification — "everything else". (As updated August, 2000)

### **Table 2: Facilities**

Facilities are the man-made structures and improvements provided on state park areas to facilitate appropriate use of the parks by the visiting public. While these facilities take many forms for many different purposes, only a few have been selected for inclusion in this report. They are described and defined as follows:

Campsites, improved: Designated sites with access to electricity, running water and modern toilets, either through hook-ups or central facilities, or both.

Campsites, primitive: Designated sites without access to utilities, other than primitive central restrooms (pit privies, holding tanks, etc.) and primitive water supply (pitcher pumps, etc.).

Cabins/cottages: Individual, self-contained rental lodging units, usually free-standing, but possibly in multiple arrangements, such as duplexes or “townhouses”. These units are not included as part of a larger campground and typically do contain kitchens and indoor bathrooms. *If a state has questions about how their units for this definition please call the NASPD Executive Director for further guidance.*

Lodges: Lodging facilities of varying size, but usually containing many rental units consisting primarily of sleeping rooms only, with either private or central bathrooms.

Lodge rooms: Independent sleeping rooms or suites within a lodge that may be rented by themselves.

Group sleeping facilities: Structures designed to be rented and/or used as sleeping quarters by identifiable groups, usually while conducting group programs in the park—“dormitories”.

Restaurants: Facilities for preparing and serving food for consumption on the premises (“eat in”) by individuals or groups on a pay-as-you-go basis, having a seating capacity of 25 people or more.

Golf courses: Any course containing at least nine regulation or “par 3” holes.

Marinas: Boat liveries containing multiple slips and providing at least some services (fuel, supplies, repairs, dry storage, etc.), as opposed to “docks” only.

Swimming pools: Swimming facilities of various sizes and shapes with an impermeable basin and a chemically treated, recirculating water supply, available for general public use with or without a separate fee.

Stables: Facilities for quartering horses for recreational use by the general public, either directly through rental of the horses themselves or indirectly through rental of the stalls.

Ski slopes: Individual slopes, or “runs” designated for independent concurrent use for downhill skiing.

### **Table 3: Visitation and Use**

Day use: A recreational outing by individuals arriving and departing the same day.

Overnight use: A recreational outing involving a stay overnight as an authorized part of the recreational experience—may be indoors (lodges, cabins, etc.) or outdoors (camping).

Fee areas: These are parks and other whole areas where entrance fees are charged and more reliable counts can be made. A “fee” area pertains to a whole area, and not to individual facilities or use areas within a park. Thus, users of campgrounds, swimming pools, etc., where a specific use charge is made would not be reported under “fee” areas unless there was also a general entrance fee for the park in which those facilities were located.

Non-fee areas: Parks and other whole areas where no general entrance fee is charged and attendance must be estimated or determined through other means—even though such parks and other similar areas contain facilities (such as campgrounds and swimming pools) that do require specific use charges.

Overnight visitation is also reported by the type of overnight accommodations used: campsites, cabins/cottages, lodges, group facilities and other.

The extent to which overnight accommodations are used is measured by “rental nights” and reported separately for campsites, cabins/cottages and lodge rooms.

Rental night: A “rental night” is a single night’s use of a single rental unit of a given overnight facility, regardless of the size of the party occupying that rental unit. Thus, a party occupying a campsite for a full week would represent seven “rental nights”.

#### **Table 4: Capital Expenses**

Land acquisition is reported in two categories (1) by purchase with cash or equivalent value, (2) by other means (such as donations and transfers from other government programs).

New construction is reported as the total cost of all construction initiated during the year, whether completed during that year or not.

#### **Table 5: Financing**

Operating expenditures: Includes only those expenditures for operation and maintenance of the state park system per se; excluded are other related expenditures for such things as grants-in-aid to other entities, debt service on bonds, etc.

Fixed capital expenditures: Includes only those expenditures for land acquisition, park construction, etc. “User fees” are reported by the means of collection: individual visitor, passenger vehicle, bus, vehicle parking, and annual passes. For each type of fee, the rate is stated for both state residents and non-residents, and the number of parks where such a fee is charged is noted.

#### **Table 6: Personnel**

Salary ranges are reported for several general categories of personnel:

Field unit employee: Employee having broad public contact, interpretative, and park maintenance duties—e.g. a park ranger.

Field unit manager: Senior on-site employee; manages park, supervises subordinate personnel—e.g. a park superintendent.

Field supervisor: Oversees operation of a number of units in a given region—e.g. a district manager.

Operations chief: The one position responsible for direct day-to-day operation of the whole park system; normally the one to whom field supervisor report.

State park director: The one position responsible for overall direction of the state parks agency.

Ranger: employee with administrative, operational, management, and/or law enforcement responsibilities as their primary function. Employee may be involved with other activities such as routine maintenance or interpretation as additional duties.

Maintenance worker: employee with maintenance and upkeep being the primary responsibility.

Interpreter or naturalist: employee involved in the education of the public as their primary responsibility. Employee may be assigned other duties.
